

Annual Report 2021-2022

Huntley Centennial Public Schools Parent Council consists of parents who have children attending the school, the Principal, Vice-Principal and a Teacher representative. During the 2021-2022 school year we generally meet on the first Monday of the month at 7:00pm virtually. During our meetings we discussed every aspect of the school, both its physical and learning environments and how best to improve the educational achievements of all students.

As the second year into the pandemic we have found different ways to fundraise since we were not able to host our bigger events that bring families into the school. Hopefully our new year will allow for some of our in person fundraisers.

We are very lucky to have a wonderful group of parents and a very supportive Huntley Staff. Our team of parents has been outstanding over the years, especially as we have adapted with the pandemic. We are very lucky to have a large group of parents that are eager to help with the fundraisers and improve our children's experience. The Huntley staff is always happy to help and support our fundraisers in anyway they can.
